There are 195 nations officially recognized as independent countries in the world, each with its own capital city. A significant number of countries have multiple capital cities. Where that occurs, the additional capital cities are listed as well. The United Nations list of nations doesn't include Taiwan as separate but as a part of China: 193 U.N. member nations and two nonvoting observer states, the Vatican City and Palestine. As of Jan. 20, 2020, only 15 countries recognize Taiwan as an independent nation. Eight countries that previously did so established diplomatic relations with China after President Tsai Ing-Wen's election in May 2016. Tsai was reelected on Jan. 10, 2020. President Donald Trump moved the U.S. embassy to Jerusalem in 2018 and others may follow, possibly just to "curry favor" with the United States for aid in their own crises. Eric Olson told the Washington Post. While the listing above is an authoritative listing of the independent countries of the world, it is important to note that there are also more than 80 territories, colonies, and dependencies of independent countries, which often have their own capital cities as well. The whole world is divided into 7 continents and 195 countries. Only 6 Continents are inhabitable whereas the South pole of the globe, Antarctica is uninhabitable, it is covered with snow only. These 6 continents are divided into 195 countries. Check the list of countries of all the continents wise. Almost every exam i.e., UPSC, SSC, Bank, Railways, State PSC have one or two questions from the "Countries and Capital" or "Country in which Continent". After reading this article you will be able to answer both types of questions. The inhabitable continent which is divided into countries are: Countries and Capitals► Africa, ► Asia, ► Australia, ► Europe, ► North America ► South AmericaCountries and their Capitals of African ContinentAfrica is also known as the black continent of the world.
